PROFESSIONAL SUMMARY

Multimedia Engineer with 5+ years of experience in software development, application architecture, and technical leadership. Specialized in Java, Spring Boot, Angular, and REST API design. Experienced in hexagonal architecture, microservices, enterprise systems integration, Oracle and SQL Server database modeling, and coordination of development teams. Focused on engineering best practices, scalability, system maintenance, and automated testing with Selenium.

TECHNICAL SKILLS

Backend Development: Java, Spring Boot, Spring Security, REST APIs, Microservices, Hexagonal Architecture

Frontend Development: Angular, RxJS, React, Vue.js, JavaScript (ES6+), HTML5, CSS3, jQuery

Databases: Oracle, SQL Server, MySQL, MariaDB, MongoDB, Firebase

Testing & Quality Assurance: Selenium, Automated Testing, Functional Testing

Cloud & DevOps: Git, CI/CD, AWS (foundational), Microsoft Azure (foundational)

Additional Languages & Frameworks: Python, PHP, Django, YII2, Ionic

Methodologies & Practices: Scrum, Agile, Requirements Engineering, ER Data Modeling, Project Management

Core Competencies: Technical Leadership · Team Coordination · Cross-Functional Communication · Continuous Learning · Analytical Problem-Solving · Ownership & Accountability

PROFESSIONAL EXPERIENCE

Software Developer — IAS Software

2026 – Present

- Develop backend modules using hexagonal architecture with Java Spring.
- Build modular, reusable frontend components with Angular.

Full Stack Developer / Technical Lead — Herpo

September 2024 – April 2026 (20 months)

- Gathered functional and technical requirements directly with key users and stakeholders across business areas.
- Designed and modeled relational database structures (ER modeling) and built production-ready databases.
- Developed Angular frontend interfaces and Java backend services, including REST APIs and microservices.
- Led the design and integration of a Warehouse Management System (WMS) with the Siesa ERP platform.
- Defined and supervised software architecture standards while providing production support, implementing process-improvement solutions that strengthened system reliability.
- Coordinated and led a development team, driving collaboration and on-time delivery of project goals.

Full Stack Developer — GSC Soluciones

February 2024 – September 2024 (8 months)

- Gathered client requirements and developed Entity-Relationship (ER) models for relational database design.
- Built frontend interfaces and backend services, including REST APIs, for business system integrations.

Full Stack Developer / Support — Movi Software SAS

July 2022 – October 2023 (16 months)

- Developed full-stack web applications end-to-end and implemented backend services for business clients, performing evolutionary maintenance and ongoing technical support on production systems.

QA Test Analyst (Remote) — Q-Extreme / Aranda

January 2022 – January 2023 (13 months)

- Designed and automated functional test suites using Selenium, performing QA analysis and validation across software releases in a fully remote setting.

EDUCATION

Multimedia Engineering — Universidad de San Buenaventura, Cali (2021)

Technical Degree, Industrial Electronic Maintenance — SENA (2015)

Technical Baccalaureate in Electronics — I.E. Antonio José Camacho (2015)

CERTIFICATIONS

- Scrum Foundations Professional Certificate — Certiprof (2023)
- Project Management — Politécnico de Colombia (2023)
- Web Development — Next U (2020)
- IT Technical Support — Next U (2020)
- Diploma in Multimedia Project Design and Development — Universidad de San Buenaventura (2020)
